

Simply Clean

SOFT SURFACE CLEANERS

The optimum solution for cleaning tasks is an important economic factor in industry and commerce. Environmental aspects are also important factors.

That is why Kärcher have designed an extensive assortment precisely to your needs. Kärcher upright carpet vacuums combine high suction power with an electrically driven brush. This is the ideal way to remove stubborn dirt particles from carpet fibres.

Kärcher soft surface cleaning equipment make fibre-deep cleaning of large carpeted areas possible and more economic. They can be used for conventional spray extraction as well as for a new intermediate cleaning process.

KÄRCHER CV 66/2 WIDE AREA CARPET VACUUM CLEANER

The CV 66/2 vacuum cleaner is particularly suitable for thorough and economical maintenance cleaning of medium to large sized carpeted areas. With its counter rotating roller brush system, floating brush deck and the soft grip adjustable handle, the machine is extremely convenient and ergonomically designed. The floating brush deck adapts to the carpet surface automatically, adjustment by the operator is not necessary, therefore uneven surfaces and different kinds of carpets are thoroughly cleaned.

The individually adjustable handle allows to push the CV 66/2 easily with one hand. In addition the unit can be stowed away and transported space-saving because of the hinged handle. The 20 m long mains cable can be stored at the integrated power cable hook.

A comfortable access to the filter system is made possible by the large filter cover which can be opened widely. A paper filter change is thus simply and comfortably possible. The two roller brushes can be taken off easily.

Standard Accessories

- Paper filter bag,
- Filter condition indicator,
- Height-adjustable handle,
- 2 Roller brushes,
- Safety class II
