

SOFT SURFACE CLEANERS

The optimum solution for cleaning tasks is an important economic factor in industry and commerce. Environmental aspects are also important factors.

That is why Kärcher have designed an extensive assortment precisely to your needs. Kärcher upright carpet vacuums combine high suction power with an electrically driven brush. This is the ideal way to remove stubborn dirt particles from carpet fibres.

Kärcher soft surface cleaning equipment make fibre-deep cleaning of large carpeted areas possible and more economic. They can be used for conventional spray extraction as well as for a new intermediate cleaning process.

KÄRCHER CV 85/2 RS BATTERY OPERATED WIDE AREA CARPET VACUUM CLEANER

This unit is extremely easy to maneuver. It offers a good overview, outstanding cleaning result, robust technics, easy operation as well as a long running time due to the battery exchange cart. In addition quick get on and off is possible.

Application

Service providers, contract cleaners, hotels, department stores, public buildings with large carpet surfaces.

Features & Benefits

- Very good overview of the area which has to be cleaned
